

Wrag Barn Golf Club is a 6622 yard, 18-hole golf course and driving range situated on the outskirts of Highworth, near Swindon. The course is parkland in character, with stunning views across the Berkshire Downs. Designed by Hawtree & Son in 1989, the layout is an exciting prospect for all levels of golfer.

As well as a golf course, Wrag Barn is also a wedding venue, and has function rooms and conference facilities - all enjoying views of the Wiltshire countryside.

PFS were asked to quote for the installation of a monitored intruder alarm system for the club's greenkeeper building.

*"PFS were excited to be asked to provide an intruder alarm system for this prestigious venue. The system, backed up by the monitoring service, will help to keep the venue safe and secure."*

**Matthew Harrison (PFS Managing Director)**

## PROJECT SUMMARY

### BUILDING TYPE

Golf course and multi-use clubhouse

### REQUIREMENTS

Supply and installation of a new intruder alarm system

### TECHNOLOGY

- Risco Alarm System
- CSL DualCom Communicator

**IAN KEATES**  
Project Lead Surveyor

**LEE SAUNDERS**  
Project Lead Engineer
